

BRANDON LARA RODRIGUEZ

Full-Stack JavaScript Developer | React | React Native

PROFILE

Full-Stack JavaScript Developer with 6+ years of experience building scalable web and mobile applications using React, React Native, Next.js, and Node.js.

Proven track record of improving performance, reducing technical debt, and designing reusable architectures that enhance scalability and accelerate development.

PROFESSIONAL EXPERIENCE

Freelance

AI Training Projects:

Improved AI model accuracy across multiple platforms (Outlier, OneForma, Telus) through high-quality data annotation and evaluation.

Branding Platform for Local Hospital:

- Designed and developed a full-stack branding platform using React, TypeScript, and Next.js, leading frontend, backend, and UI/UX implementation while leveraging Server Components and dynamic data fetching with MongoDB.
- Established CI/CD workflows using GitHub Actions and automated deployments through Vercel, improving release reliability and reducing manual deployment effort.

Arkus Nexus — Full-Stack Developer

NOV 2020 - MAY 2024

Technologies: React, Next.js, TypeScript, Node.js, Redux Toolkit, NestJS, Jest, MongoDB, Laravel, Jenkins

Sentire – Agricultural Data Platform:

- Improved front-end architecture using React and Next.js by designing reusable custom hooks and refactoring legacy components, increasing modularity and performance.
- Built reusable and scalable React components to visualize machine learning-generated agricultural data, improving data readability and user interaction efficiency.

Security Scanner Platform:

- Designed and implemented a modular full-stack architecture using React and NestJS, improving scalability, maintainability, and API integration workflows.
- Improved code reliability by implementing unit testing with Jest and maintaining CI/CD workflows using Jenkins and GitHub Actions.

FrontRunner Technologies — Mobile Developer

APR 2018 - APR 2020

Technologies: React Native, React, PHP, Xcode

Virtual Aircraft Parts Store

- Developed and deployed a cross-platform mobile application using React Native, enabling efficient product discovery and transactions.
- Implemented scalable search and filtering flows using centralized Redux state management, improving UI consistency and reducing unnecessary re-renders.
- Modernized legacy architecture by migrating to functional components, improving maintainability and reducing technical debt.

Social Network App:

- Built a media feed system using React Native, enabling dynamic content rendering in a social networking context.
- Optimized media-heavy React Native feeds by improving FlatList virtualization, implementing paginated data loading, and reducing unnecessary re-renders, resulting in smoother scrolling and faster content loading.

EDUCATION

ICT ENGINEERING

Instituto Tecnológico de Aguascalientes
Aug 2014 – Dec 2019

BACCALAUREATE IN IT & IT TECHNICIAN

CETIS No. 155
Aug 2011 – Aug 2014

SKILLS

- Frontend:** React.js, React Native, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Context API, MUI
- Backend:** Node.js, Express.js, NestJS, Laravel (PHP), Prisma, Mongoose
- Performance / Debugging:** React DevTools, Chrome DevTools, Memoization techniques (React.memo, useMemo, useCallback), FlatList virtualization, LightHouse
- Database:** MySQL, MongoDB
- Testing & Code Quality:** Jest, ESLint
- DevOps & Tools:** Git, GitHub Actions, Vercel, Linux, GCP, Jenkins, Jira, Xcode
- Languages:** Spanish (Native), [English](#) (B2 - CEFR)
